The average life span of the Japanese is 78 for males and 85 for females, the longest in the world. The main secret lies in their food. The Japanese eat a lot of tofu, which is made from soybeans. Tofu contains lots of vegetable protein, calcium and vitamin B. It doesn't contain much fat and it doesn't provide many calories. Seafood like fish and vegetables play an important role in their diet, too. They cook the seafood with less cooking oil and less time. For each meal, they have more dishes on the table than us but they eat only a little of everything, never stuffing themselves. Japanese people also work very hard and do more exercises. This helps them burn the calories off easily

Dear Hoa,

I am pleased that you and your family are well. I am fine, too. Here is a photo of me, my Mom and Dad, and my sister, Shannon. Can you send me a photo of you?

Let me tell you more about my parents.

My Mom works at home. She takes care of the family. Three mornings a week, she works part-time at a local supermarket. She and other women also cook lunch for homeless people once a week.

My Dad is a mechanic. He repairs machines in a factory. He works five days a week for about 40 hours, sometimes in the morning and sometimes in the afternoon. He prefers the morning shift. He has fewer days off than my Mom. However, when he has an afternoon free, he plays golf.

Dad gets about seven public holidays each year. He also has a three-week summer vacation. We always go to Florida on vacation. We have a great time and Dad plays more golf.

Please write soon and tell me more about your family.

Best wishes,

Tim
